**IBPS Clerk : Mains
 Grand Test - 3**

Test-I : Quantitive Aptitude

Directions (1-5): Study the following pie chart and answer the following questions.

**Total number of Employees = 12600
 Percentage wise distribution of Employees**

- The number of employees in the department of Examination is approximately what per cent more than the number of employees in Research department?
 1) 39% 2) 40% 3) 25%
 4) 35% 5) 50%
- If $66\frac{2}{3}\%$ per cent of the number of employees of HR department is females, then what is the number of male employees in the HR department?
 1) 462 2) 926 3) 420
 4) 452 5) None of these
- The number of employees in Admission department is approximately what percentage of the total number of employees in the department of Examination and Academic Affairs together?
 1) 28.75% 2) 45.75% 3) 29.23%
 4) 23.55% 5) 18.75%
- What is the average number of employees in Admission, Academic and Research department together?
 1) 1742 2) 1842 3) 2042
 4) 2142 5) None of these
- What is the difference between the total number of employees in the department of HR and Research together and the total number of employees in Accounts and Examination department together?
 1) 1521 2) 1512 3) 1614
 4) 1529 5) None of these

Directions (6-10): What should come in place of question mark (?) in the following number series?

- 541, 269, 133, 65, ?, 14
 1) 31 2) 33 3) 36
 4) 35 5) None of these

- 705, 728, 774, 843, 935, 1050, ?
 1) 1190 2) 1180 3) 1185
 4) 1187 5) None of these
- 60.5, 72, 84.5, 98, 112.5, ?
 1) 125 2) 122 3) 126
 4) 127 5) None of these
- 16, 37, 62, 96, 146, ?
 1) 229 2) 217 3) 221
 4) 213 5) None of these
- 13, 10, 4, -5, -17, ?
 1) -34 2) -32 3) -22
 4) 34 5) None of these

Directions (11-15): What should come in place of question mark (?) in the following given questions(just calculate the approximate value)?

- 52.02% of 749 + 45% of 419.98 - ? = 15^2
 1) 354 2) 364 3) 370
 4) 368 5) 394
- $246.01 + 2953.98 - 449.98 - 302 = ?$
 1) 2020 2) 2800 3) 2450
 4) 3000 5) 3050
- $? + 30.01\%$ of 651 ÷ 25.05% of 59.98 = 135
 1) 68 2) 140 3) 122
 4) 78 5) 128.5
- $1549.95 - 7.99 \times 25.03 - ?^2 = 1153.95$
 1) 14 2) 24 3) 32
 4) 18 5) 8
- $499.99 + 1999 \div 39.99 \times 50.01 = ?$
 1) 3200 2) 2700 3) 3000
 4) 2500 5) 2400

Directions (16-20) : Study the following data related to seven friends carefully to answer the questions that follow.

Parul, Niharika, Anshu, Pooja, Jyoti, Aditi and Komal are seven friends living along a straight road in same manner as given starting with Parul.

Pooja lives 150 km away from Parul, and takes 1 hr 40 min to reach to Aditi. It takes Parul 5 hours to reach to Aditi who lives 250 km away from her. When Anshu and Komal move toward each other at 70 k/hr and 50 km/hr respectively, they meet after 1 hr 35 min. Anshu takes only 240/7 min to reach to Pooja. Niharika being 240 km away from Komal crosses Jyoti after 5 hr 40 min and meet Komal after 8 hours from start. Jyoti and Aditi meet after 24 minutes if they start moving simultaneously towards each other with speed in 3 : 2 ratio.

Note: Speed of all remains constant.

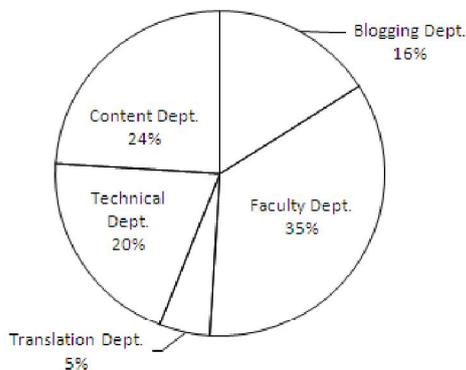

16. On a weekend, all friends decided to meet at Parul's house at 9 : 00 pm sharp. At what time should Jyoti leave her house to get at location in time if she spends 10 minutes waiting for Niharika at Niharika's house?
 1) 2 : 10 pm 2) 2 : 45 pm 3) 1 : 10 pm
 4) 1 : 30 pm 5) None of these
17. Niharika and her boyfriend together left their office at 6 : 30 pm and move towards their home with same speed as Niharika. Office is 120km away from Jyoti's house in opposite direction of Niharika's house. Find the distance of house of Niharika's boyfriend from her house if she dropped him at home at 7 : 05 pm.
 1) 280 km 2) 265.5 km 3) 252 km
 4) 272.5 km 5) None of these
18. Find the ratio of distance between residence of Parul and Komal and that of Anshu and Jyoti.
 1) 2 : 5 2) 5 : 2 3) 3 : 1
 4) 7 : 3 5) None of these
19. All friends decided to meet at Pooja's house, with the condition that they have to move towards Pooja house with the speed of the next friend they meet in the way starting with Parul and Komal living at opposite ends. Find the difference in the time when the two groups reach at destination. (rounded off up to two decimal points)
 1) 0.52 hr 2) 2.31 hr 3) 1.23 hr
 4) 2.51 hr 5) 1.82 hr
20. By what percent speed of Anshu is more or less than that of Komal ?
 1) 32% 2) 45% 3) 30%
 4) 40% 5) None of these

Directions (21-25) : Study the following pie chart and

answer the following question given below :

Number of male in the organization is two times of the number of females in the organization

Percentage breakup of male employees working in various departments of an organization

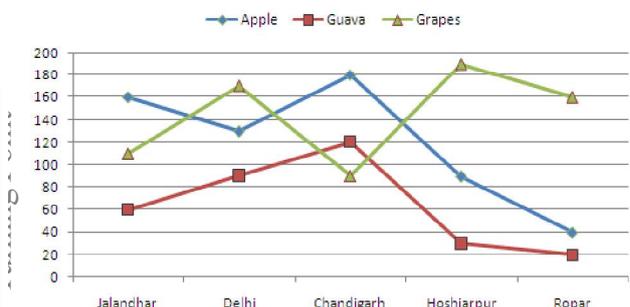

Number of females in Each Department	
Faculty Department	2400
Blogging Department	3200
Translation Department	2800
Technical Department	3800
Content Department	2100

21. Number of males in Blogging, Technical and Content department together are approximately what percent more/less than the total number of females in the same departments?
 1) 85% 2) 89% 3) 94
 4) 79% 5) 95%
22. Out of the total number of employees from Translation department, 30% of the employees got promoted then find the ratio of the number of employees from Translation department who get promoted to the total number of male employees in the organization ?
 1) 28600 : 1269 2) 1170 : 28779
 3) 1269 : 14300 4) 1269 : 28600
 5) 28779 : 1170
23. If one male from Faculty can do a work in 20020 days and the female from Faculty are 20% less efficient than that of male in Faculty. Find the total no. of employees from Faculty to do the same job?
 1) $\frac{2002}{2009}$ days 2) $\frac{2002}{1096}$ days 3) $\frac{1008}{1001}$ days
 4) $\frac{2002}{2097}$ days 5) $\frac{2097}{2002}$ days
24. Find the difference between the average number of males in all departments of the organization and the average number of females in all departments of the organization?
 1) 2860 2) 2440 3) 2630
 4) 2920 5) None of these
25. If some male employees from Content Department shifted to Blogging department and some female employees from Blogging departments shifted to Content departments such that total number of male employees and female employees in Content Department are same as total number of male employee and female employee in Blogging departments respectively. Now find the Average of the number of female employees from Content and male employee in Blogging department together?
 1) 4195 2) 4185 3) 4220
 4) 5210 5) Can't be determined

Directions (26-30) : Study the following graph carefully to answer the questions that follow:

Cost of three different fruits (in rupees per kg.) in five different cities.

26. In which city is the difference between the cost of one kg. of apple and cost of one kg. of guava second lowest?
 1) Jalandhar
 2) Hoshiarpur or Chandigarh
 3) Delhi
 4) Ropar
 5) None of these
27. Cost of one kg. of guava in Jalandhar is approximately what percent of the cost of two kgs. Of grapes in Chandigarh?
 1) 66
 2) 24
 3) 28
 4) 33
 5) 58
28. What will be the average of the total amount paid for 3 kgs. of apples and 2 kgs. of guavas in Delhi and Chandigarh together?
 1) Rs 530
 2) Rs 450
 3) Rs 675
 4) Rs 620
 5) Rs 490
29. Ravinder had to purchase 45 kgs. of grapes from Hoshiarpur. The shopkeeper gave him the discount of 4% per kg. What amount did he pay to the shopkeeper after the discount?
 1) ₹ 8,208
 2) ₹ 8,104
 3) ₹ 8340
 4) ₹ 8,550
 5) ₹ 8,410
30. What is the respective ratio between the cost of 5/2 kg. of grapes from Ropar and the cost of 3/2 kg. of apples from Jalandhar?
 1) 3 : 2
 2) 2 : 3
 3) 5 : 11
 4) 4 : 9
 5) 5 : 3
- Directions (31-35) : In these questions, two equations numbered I and II are given. You have to solve both the equations and give answer :**
- 1) $x \geq y$
 2) $x \leq y$
 3) $x < y$
 4) $x > y$
 5) Relationship between x and y cannot be established
31. I. $6x^2 + 5x + 1 = 0$ II. $15y^2 + 8y + 1 = 0$
32. I. $x^2 + 5x + 6 = 0$ II. $4y^2 + 24y + 35 = 0$
33. I. $2x^2 + 5x + 3 = 0$ II. $y^2 + 9y + 14 = 0$
34. I. $88x^2 - 19x + 1 = 0$ II. $132y^2 - 23y + 1 = 0$
35. I. $6x^2 - 7x + 2 = 0$ II. $20y^2 - 31y + 12 = 0$
- Directions (36-40) : In the following series find the term which is placed incorrectly.**
36. 0, 4, 19, 48, 100, 180, 294
 1) 19
 2) 100
 3) 294
 4) 48
 5) 180
37. 1, 1, 2, 7, 34, 202, 1420
 1) 7
 2) 34
 3) 202
 4) 2
 5) 1420
38. 823, 734, 645, 556, 476, 378, 289
 1) 476
 2) 556
 3) 289
 4) 645
 5) 734
39. 1, 4, 11, 34, 102, 304, 911
 1) 11
 2) 911
 3) 102
 4) 34
 5) 304
40. 5, 8, 20, 42, 124, 246, X 736
 1) 20
 2) 124
 3) 8
 4) 42
 5) 736
41. Two friends A and B jointly lent out ₹ 81,600 at 4% per annum C.I. after 2 years, A gets the same amount as B gets after 3 years. The investment made by B was
 1) ₹ 40000
 2) ₹ 30000
 3) ₹ 45000
 4) ₹ 38000
 5) None of these
42. Raman scored 456 marks in an exam and Sita got 54 percent marks in the same exam which is 24 marks less than Raman. If the minimum passing marks in the exam is 34 percent, then how much more marks did Raman score more than the minimum passing marks?
 1) 184
 2) 196
 3) 190
 4) 180
 5) None of these
43. An HR company employs 4800 people, out of which 45 percent are males and 60 percent of the males are either 25 years or older. How many males are employed in HR company who are younger than 25 years?
 1) 2480
 2) 2320
 3) 1278
 4) 864
 5) None of these
44. The simple interest (p.a.) accrued on an amount of ₹ 17,000 at the end of four years is ₹ 6,800. What would be the compound interest (compounded annually) accrued on the same amount at the same rate after two years?
 1) Cannot be determined
 2) Other than those given as option
 3) ₹ 3570
 4) ₹ 3260
 5) ₹ 3980
45. Amit borrowed a certain sum of money for 2 years at 8% per annum on simple interest and immediately lent it to Ravi but at compound interest and gained by ₹ 16. What amount did Amit borrow?
 1) ₹ 1600
 2) ₹ 2500
 3) ₹ 2400
 4) ₹ 1800
 5) None of these
46. A man can row 30 km upstream and 44 km downstream in 10 hrs. Also, he can row 40 km upstream and 55 km downstream in 13 hrs. find the rate of the current and the speed of the man in still water.
 1) 3 km/hr, 8 km/hr
 2) 3 km/hr, 7 km/hr
 3) 4 km/hr, 6 km/hr
 4) 8 km/hr, 3 km/hr
 5) None of these
47. A boat travels upstream from B to A and downstream from A to B in 3 hrs. If the speed of the boat in still water is 9 km/hr and the speed of the current is 3 km/hr, the distance between A and B is
 1) 8 km
 2) 16 km
 3) 12 km
 4) cannot be determined
 5) None of these
48. A man can row 6 km/hr in still water. If the speed of the current is 2 km/hr, it takes 3 hrs more in upstream than in the downstream for the same distance. The distance is
 1) 30 km
 2) 24 km
 3) 20 km
 4) 32 km
 5) None of these

49. A man can row 5 km/hr in still water. If the river is running at 1 km/hr, it takes him 75 min to row to a place and back. How far is the place?
 1) 2.5 km 2) 3 km 3) 4 km
 4) 5 km 5) None of these
50. A motorboat can travel at 10 km/hr in still water. It travelled 91 km downstream in a river and then returned, taking altogether 20 hrs. Find the rate of the flow of the river
 1) 6 km/hr 2) 5 km/hr 3) 8 km/hr
 4) 3 km/hr 5) None of these

Test - II

Reasoning Ability & Computer Knowledge

Directions (51-55) : In each question below are given three statements followed by four conclusions numbered I, II, III and IV. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

51. **Statements :**
 a. Some sheets are rods.
 b. No sheet is a foil.
 c. All rods are marbles.

Conclusions :

- I. No foil is a marble.
 II. Some sheets are marbles.
 III. Some rods are foils.
 IV. Some rods are not foils.

- 1) Only I follows
 2) Only II follows
 3) Either III or IV follows
 4) Only I and either III or IV follow
 5) Only II and IV follow

52. **Statements :**
 a. Some MLAs are not honest.
 b. Some MLAs are dishonest.
 c. No honest is a leader.

Conclusions :

- I. Some MLAs are leaders.
 II. All dishonest are honest.
 III. Some dishonest are MLAs.
 IV. No leader is dishonest.

- 1) Only IV follows
 2) Only III and II follow
 3) Only I follows
 4) Only I and IV follow
 5) None of these

53. **Statements :**
 a. Some stones are not rods.
 b. All rods are black.
 c. No black is a crow.

Conclusions :

- I. Some crows are rods.
 II. Some blacks are stones.
 III. Some crows are blacks.
 IV. Some stones are rods.

- 1) Only I follows
 2) Only II follows
 3) Only I and IV follow
 4) Only IV follows
 5) None of these

Statements :

- a. Some garbages are money.
 b. All papers are garbages.
 c. All money are coins.

Conclusions :

- I. Some papers are coins.
 II. Some garbages are coins.
 III. No money is a paper.
 IV. All coins are garbages.

- 1) Only I follows
 2) Only I and III follow
 3) Only III follows
 4) Only II and III follow
 5) Only II follows

55. **Statements :**

- a. Some pants are shirts.
 b. No face is a pant.
 c. No pant is a flower.

Conclusions :

- I. No flower is a face.
 II. No face is a flower.
 III. Some shirts are not faces.
 IV. Some shirts are pants.

- 1) Only I and II follow
 2) Only III and IV follow
 3) Either I or II follows
 4) Only IV follows
 5) None of these

Direction (56-60) : Study the following information to answer the given Questions

Ten persons from ten different cities viz. Darbhanga, Pune, Goa, Kolkata, Guna, Noida, Ranchi, Gaya, Kanpur and Lucknow are sitting in two parallel rows containing five people each, in such a way that there is an equal distance between adjacent persons. In row 1- A, B, C, D and E are seated and all of them are facing south. In row 2 – P, Q, R, S and T are seated and all of them are facing north. Therefore in the given seating arrangement, each member seated in a row faces another member of the other row. (All the information given above does not necessarily represent the order of seating in the final arrangement.)

The person from Kolkata sits to the immediate right of Q. P faces one of the immediate neighbors of the person who is from Pune. D faces one of the immediate neighbors of the person from Goa. S is not from Goa. D is not from Guna. R sits second to the left of the persons who is from Lucknow. A sits third to the right of person who is from Noida. Only One person sits between the person from Kanpur and Q. C sits to the immediate left of the person who faces Q. Only two people sit between B and E. The person from Guna sits second to the right of the one who faces S. S does not sit at an extreme end of the line. One of the immediate neighbors of the person from Guna faces Kanpur. P does not face A. The person from Darbhanga sits second to the right of the person from Gaya.

56. Who amongst the following faces the person from Ranchi?
 1) The person from Darbhanga
 2) D
 3) The person from Noida
 4) The person from Kanpur
 5) B or E
57. T is from which of the following Cities?
 1) Goa 2) Kolkata 3) Ranchi
 4) Kanpur 5) Guna
58. Which of the following is true regarding C?
 1) C sits an extreme end of the line
 2) None of the given options is true
 3) C is from Gaya
 4) The person from Kolkata faces C
 5) The person from Ranchi is an immediate neighbor of C
59. If R is related to A and Q is related to D then in the same way S is related to?
 1) B 2) E 3) Either B or E
 4) C 5) None of these
60. Who amongst the following sit at extreme end of the row?
 1) The person from Darbhanga and R
 2) The persons from Gaya and A
 3) A and the person from Goa
 4) The persons from Noida and Goa

Directions (61-65) : Study the following information to answer the given questions.

In a certain code language,
 'banks take tougher steps' is written as
 'GT#5 LS#7 ZF@4 ZT#5'
 'ordinance to amend the' is written as
 'SF#3 NE#5 LP@2 IF#9'
 'deal with specific stressed' is written as
 'GE@8 KD@8 RI@4 VM@4'

61. What is the code for 'empowered' in the given code language?
 1) KE#9 2) KE#81 3) KE@9
 4) EK@9 5) None of these
62. What is the code for 'banking regulation' in the given code language?
 1) ZH#7 VO@15 2) YH#7 VO@10 3) ZH#7 OO@10
 4) ZH#7 VO@10 5) None of these
63. What is the code for 'tougher steps' in the given code language?
 1) LS#8 GT#5 2) LS#7 GT#5 3) LS#7 GT#10
 4) LS#17 GT#5 5) None of these
64. What is the code for 'financial year' in the given code language?
 1) RN#9 VS@4 2) RM#9 VS@14 3) RM#9 VS@4
 4) RM#19 VS@4 5) None of these
65. What is the code for 'bankruptcy' in the given code language?
 1) ZZ@15 2) ZX@10 3) YZ@10
 4) ZZ@10 5) None of these

Directions (66-70) : The following questions are based on the five three-digit numbers given below :

342 783 617 549 288

66. If 1 is added to the second digit of each of the numbers how many numbers thus formed will be divisible by three?
 1) None 2) One 3) Two
 4) Three 5) None of these
67. If in each number the first and the third digit are interchanged then which number will be the highest number?
 1) 288 2) 549 3) 342
 4) 783 5) 617
68. If in each number the first and the second digit are interchanged then which number will be the second lowest number?
 1) 268 2) 617 3) 342
 4) 783 5) 549
69. If all the digits in each of the numbers are arranged in descending order within the number which of the following will be the second highest number in the new arrangement of the numbers?
 1) 342 2) 783 3) 617
 4) 288 5) 549
70. What will be the resultant number if the second digit of the lowest number is divided by the second digit of the highest number?
 1) 4 2) 2 3) 1
 4) 3 5) 0

Directions (86-90) : Read the following information carefully and answer the questions which follow.

There are eight friends A, B, C, D, E, F, G, and H are living on eight storey building. The ground floor is numbered one and next floor is numbered two and so on. They all belong to different city viz. Noida, Puri, Kohima, Nagpur, Pune, Dispur, Mumbai and Imphal but not necessarily in the same order. They also like different colour viz. Red, Blue, White, Black, Pink, Violet, Yellow and Green but not necessarily in the same order.

There are three floors between the person A and who likes green colour, both of them living on even number floor but none of them living on top floor. F lives on 3rd floor and belongs to Dispur. H belongs to Noida and live immediately below A. B belongs to Puri. There are gap of two floors between B and H. There is only one floor between B and G, who belongs to Kohima. C lives immediately above D, who likes Yellow colour. There are gap of two floors between the person who like yellow colour and violet colour. The one who likes pink colour belongs to Imphal but he does not live on odd number floor. The one who belongs to Pune lives on of the below floor on which the person who likes red colour. There are as many as person lives between the one who belongs to Dispur and the person who likes black colour and as between the person who likes black colour and the person who likes white colour. The one who likes green color lives above A. The one who likes blue colour lives below the floor on which the person who belongs to Pune lives. There are as many as floor between C and E, who belongs to Nagpur and as between A and who like red colour.

86. Who among following lives on top floor?
1) B 2) E 3) G
4) D 5) C
87. Who among following likes blue colour?
1) E 2) B 3) F
4) A 5) H
88. Who among following belongs to Mumbai?
1) E 2) A 3) G
4) D 5) None of these
89. If C is related to red colour and E is related to black colour, then in the same way B is related to?
1) Red 2) Yellow 3) Green
4) Blue 5) None of these
90. E lives on which of the following floor?
1) Third 2) Fourth 3) Fifth
4) Sixth 5) Second
91. Pokémon Go app, an immensely popular game which allowed people to wander around their hometowns and score points by interacting with characters, within the confines of a game, then going to real-life places to make progress in virtual environments. Which of the following is related technology?
1) Artificial Intelligence
2) Virtual Reality
3) Augmented Reality
4) Sleeker
5) None of these
92. Which type of system can learn and adjust to new circumstances by themselves?
1) Database management system
2) Expert systems
3) Geographical systems
4) Neural networks
5) File based systems
93. In 2014, Apple decided to invent a programming language. What is the name of that programming language?
1) Cyanogen 2) Ruby 3) Swift
4) Oxygen 5) None of these
94. Which among the following is the appropriate term to find specific information on a website?
1) Analytical research
2) Drill down
3) MDX querying
4) Checking its Homepage.
5) Scroll down
95. Verizon Communications on July 2016, announced plans to acquire Yahoo for \$4.8 billion in cash. Yahoo (www.yahoo.com) is a _____.
1) Website for Consumers
2) Web Portal
3) Organization that allocates web addresses
4) E-mail service
5) E-commerce website
96. The first Web portals were online services, such as AOL, that provided access to the Web, but by now most of the traditional search engines have transformed themselves into Web portals to attract and keep a larger audience.
97. Word is a word processor developed by Microsoft. In MS Word spelling check is a feature available in which tab?
1) Page Layout 2) Home 3) Insert
4) Review 5) References
98. _____ is the automatic addition of names and addresses from a database to letters and envelopes in order to facilitate sending mail especially advertising, to many addresses.
1) mail merge 2) bcc 3) cc
4) balloons 5) New
99. The first electronic digital computer contained ____?
1) Electronic valves 2) Neural Networks
3) Fuzzy Logic 4) Semiconductor memory
5) None of these
100. The dual-port version of DRAM formerly used in graphics adaptors is :
1) FPM DRAM 2) EDORAM 3) VRAM
4) DDRSDRAM 5) None of these

Test - III : English Language

Directions (Qs. 101-110): Read the following passage carefully and answer the questions given after the passage. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

According to an old saw, Britons are more likely to get divorced than ditch their bank. That may not be quite true (in 2010, 3.8% of customers changed their bank accounts, while 1.1% of married people divorced), but it's certainly the case that the British are loth to **swap** their current accounts. While 10% of electricity users switch every year, one study suggests that by 2023 only around 5% of bank customers will move their money in any one year. Human **inertia** has a lot to do with this – there's always something more exciting

to do than read one's statements, even if it's only collecting lint. But it's not the only factor: Sir Donald Cruickshank's report into banking in 2000 rightly identified the numerous obstacles to switching. It was also a theme of the Vickers review – which has prompted this week's overhaul of the current account switching service. Where before it could take anything up to 30 working days to move from one bank to another, the new standardised system will take a maximum of seven. It should also be better at handling the migration of direct debits. No doubt this will make the lives of customers easier. Even so, this particular **overhaul** deserves only one cheer. For one thing, the monitoring of its success is not quite as energetic as it might be. For another, it is hard to see what incentive there is to swap banks, when there are so few big banks to choose from. In that respect, it is of a piece with the other financial reforms announced since the crash: fine, as far as it goes, but not the answer. Let us deal with the monitoring point first: the payments council, which sets the strategy for how bank payments are made in the UK, is also largely funded by banks and building societies. Perhaps then it is **unsurprising** to see that its criteria for judging whether the new switching service is a success are rather **modest**. They comprise: whether customers know about the service; whether customers feel confident in the service; and how well it performs. Not included on that brief list is how many people actually use the service. This would appear to be a classic case of the financial industry setting its own homework and making sure the questions aren't too hard. For a more searching investigation, we shall have to wait until the Office of Fair Trading look into things in 2015. Why the wait? Moreover, why not take up the challenge from the Treasury select committee, and allow customers to carry their account numbers with them wherever they go – which would have been a big step forward. And without the breaking up of the giant banks, all customers are really being offered is a slightly easier, shorter journey between a rock and a hard place.

101. What according to the author is true to make customers feel easy to handle their money?
- 1) Direct transfer of money in a day to bank accounts
 - 2) New system that will take only a week to thirty days to transfer
 - 3) Switching service that will help to deposit money in other banks
 - 4) Financial industries setting up in their own cities
 - 5) None of these
102. According to the passage, which of the following is not true?
- 1) It is difficult to choose banks as they are in small numbers.
 - 2) Success of switching service depends on number of customers using it.
 - 3) Only 3.8 percent of customers switch every year.
 - 4) It is advisable to allow customers to carry their account numbers.
 - 5) None of these

103. Which of the following would be a suitable title of the passage.?
- 1) New Financial industry- a boon for your money
 - 2) Changing banking system
 - 3) Current account money- safe or unsafe
 - 4) Financial switching for customers
 - 5) Current account switching-move your money
104. What is the central idea of the passage?
- 1) Current account switching should be encouraged
 - 2) Banks are the sole entity to take up the decision of switching bank accounts
 - 3) Switching bank account depends on how effective and easier the service is for customers.
 - 4) Switching bank account service is easier and helpful for customers.
 - 5) None of these
105. Which of the following suggestions author has given in the passage?
- I. There should be more funded banks and building societies.
 - II. It should not be allowed to customers to carry their money in cash.
 - III. Customers should be allowed easier services without breaking the big banks.
- 1) I only 2) I & III 3) III only
4) II & III only 5) I, II & III

Directions (106-107) : Choose the word which is most SIMILAR in MEANING of the word printed in bold as used in the passage.

106. **Overhaul**
- 1) step 2) agenda 3) improve
 - 4) break 5) report
107. **Unsurprising**
- 1) expected 2) vexed 3) amazed
 - 4) upset 5) little

Directions (108-110) : Choose the word which is most OPPOSITE in meaning of the word printed in bold as used in the passage.

108. **Swap**
- 1) trade 2) unswap 3) unexchanged
 - 4) maintain 5) revise
109. **Inertia**
- 1) action 2) apathy 3) swiftness
 - 4) inert 5) leisure
110. **Modest**
- 1) prudent 2) averse 3) intricate
 - 4) timid 5) indolent

Directions (111-115) : In the following passage there are blanks, each of which has been numbered. These numbers are oriented below the passage and against each, five words/phrases are suggested, one of which fits the blank approximately. Find out the appropriate word/phrase in each case.

Fourteen centuries ago when the world was much younger, the ruler of all India, Rajah Balhait, was (111) about his people. A new game of dice, called nard, had (112) the imagination of his subjects. Teaching them that chance alone – a roll of the dice – guided the (113) of men. All who played this game of fortune lost their (114) in the virtues of courage, prudence, wisdom and hope. It bred a fatalism that was (115) the spirit of the kingdom.

Rajah Balhait commissioned Sissa, an intelligent courtier, at his court, to find an answer to this (116) After much (117) the clever Sissa invented another game, chaturanga, the exact (118) of nard, in which the four elements of the Indian army were the key pieces. In the game these pieces – chariots, horses, elephants and foot soldiers – joined with a royal counsellor to defend their kind and defeat the enemy. Forceful (119) was demanded of the players not luck. Chaturanga soon become more popular than nard, and the (120) to the kingdom was over.

111. 1) concerned 2) confident 3) ignorant
4) indifferent 5) partisan
112. 1) propelled 2) enshrined 3) captured
4) activated 5) enhanced
113. 1) communities 2) ways 3) abnormalities
4) destinies 5) groups
114. 1) bravado 2) interest 3) peace
4) wealth 5) faith
115. 1) appalling 2) crushing 3) moistening
4) promoting 5) overwhelming
116. 1) apprehension 2) risk 3) problem
4) game 5) destiny
117. 1) deliberation 2) absorption 3) insight
4) hesitation 5) reluctance
118. 1) nature 2) equivalent 3) picture
4) opposite 5) replica
119. 1) prediction 2) concentration 3) manipulation
4) attack 5) fortune
120. 1) devastation 2) anxiety 3) impeachment
4) nuisance 5) threat

Directions (121-125) : Rearrange the following six sentences (A), (B), (C), (D), (E), and (F) in the proper sequence to form a meaningful paragraph; then answer the questions given below them

- (A) The group desired to enhance the learning experience in schools with an interactive digital medium that could be used within and outside the class room.
